The Staffing Challenge

Sound familiar?

- WhatsApp groups and phone calls to find locum staff - hoping someone replies
- No way to verify credentials until the person shows up at your door
- Agencies charge 20-40% markup and still take days to fill shifts
- Workers don't show up. No accountability, no recourse.
- Payment disputes. Workers want cash upfront, your procurement runs on invoices.
- Compliance anxiety - are all your workers' licenses current?

There's a better way.

Meet OnLocum

The trust platform for healthcare staffing

- Post shifts and get matched with verified, scored healthcare workers
- Every worker has a trust tier (Standard / Pro / Elite) based on real performance data
- Credentials verified through NCK, KMPDC, COC - tracked and updated automatically
- Guaranteed payment processing via M-Pesa - workers always get paid, you get receipts
- GPS tracking, digital timesheets, and shift management in one dashboard
- Start free. No commitment, no setup fees.

How It Works

1 — **Post a Shift**

Specify role, date, time, and requirements. Takes under 2 minutes.

2 — **Get Matched**

Verified workers with trust scores apply. Review profiles, ratings, and credentials.

3 — **Pay Securely**

M-Pesa integrated payment. Workers get paid on time, every time. You get digital receipts and timesheets.
