

Does this sound like your facility?

"You posted in three WhatsApp groups. Two nurses replied. One didn't show up. The other's license expired last month."

"Your agency charged 35% markup and took two days to send someone. You needed coverage this morning."

"A locum worker claims they weren't paid. You claim they left early. There's no record either way."

"Your compliance officer asks: "Can you prove every temporary worker's credentials are current?" You can't."

OnLocum eliminates every one of these problems.
